## Program at-a-glance

The Academy for Math, Science, Arts and Technology (A.M.S.A.T.) offers pre-university, accelerated classes in mathematics and science with integrated technology (computers and specialized laboratory equipment) that provides hands-on experience. Optional fine arts and performing arts classes are offered in conjunction with the math, science and technology classes. The Academy of Finance (A.O.F.) uses the National Academy Foundation's curriculum to introduce students to business, career, and academic options that will allow them to develop new perspectives on the professional world. Students engage in a learning experience that integrates business with industry and creates career awareness through participation in activities such as Future Business Leaders of America (FBLA) and Distributive Education Clubs of America (DECA). The Teacher Education Academy at Clark High (T.E.A.C.H.) is an integral part of the Clark County School District's Students Today...Educators Tomorrow campaign, providing an academic-based, pre-university curriculum for prospective student educators, including actual classroom teaching experiences. Students benefit from opportunities for dual-credit courses provided by the University of Nevada, Las Vegas (UNLV), and other opportunities offered by the College of Southern Nevada; Nevada State College; the Clark County School District; and professional educational organizations.

## Ed W. Clark High School Facts at-a-glance

Established: 1965  
Grades: 9-12
