Program at-a-glance

The Roger D. Gehring Academy of Science and Technology engages students in an academically rigorous curriculum. The nationally-renowned Project Lead the Way program empowers students to adopt a design-thinking mindset through compelling activities, projects, and problems that build upon each other and relate to the world around us. Gehring students participate in interdisciplinary, hands-on projects which incorporate standards-based learning in the school created community gardens, tortoise habitat, science and engineering labs, and technology and media rooms. The Roger D. Gehring Academy of Science and Technology is a diversity-focused elementary magnet school that strengthens the entry to exit outcomes for families of all racial and socio-economic backgrounds.

Roger D. Gehring Academy of Science and Technology

Facts at-a-glance

Established: 2002

Grades: 1-5

Safekey: Yes

Principal:

Amy Yacobovsky
