Program at- a-glance

Spring Valley High School is home to an authorized International Baccalaureate Middle Years Program (MYP), and is in the final steps of authorization for the Diploma Program (DP). IB is generally regarded as the most challenging curriculum available to high school students worldwide, but IB educators also strive to foster strong emotional and social characteristics, so that students can act on what they encounter in their classes. Too often schools are engaged in teaching *to* students. IB schools want to facilitate an environment where students can take ownership and drive their own learning, and where teachers are empowered to create classrooms that allow that kind of learning to take place. IB programs exist in over 5000 schools in 140 different countries. We look forward to offering this incredible educational experience to your children.

Spring Valley High School Facts-at-a-glance
